## FRUIT TREES

Our Apple, Cherry, Peach, Plum and Pear Trees are standard first-class 2-year old stock, 3½ to 5 feet. This is all Western grown, acclimated stock ready for delivery and planting any time now. Order early and get your trees out while there is plenty of moisture. The earlier you get them out the less loss you will have.

**APPLES:** Varieties: Yellow Transparent, Early Harvest, Duchess, Wealthy, Maiden Blush, Autumn Strawberry, Grimes Golden, Delicious, Jonathan, Staymen's Winesap, Wolf River and Gano. **CRAB APPLES:** Hyslop, Red Siberian, Florence and Whitney. Strawberries, Fremont Wm..	.25	.75
Strawberry, Hood River.....	.25	.75
Everbearing Progressive.....	.25	1.25
Everbearing Superb .....	.25	1.25

## SEED NOTES

The upward tendency of Farm Products is having a stimulating effect on the demand for Seeds. Also the fact that prices will advance with the season, therefore, the demand and movement is much better with every indication that an average acreage of Farm Crops will be planted. The influx of the city idle to the country insures plenty of farm help at or near pre-war prices. The Government is also getting its machinery in operation to relieve the situation and assist the Farmers, and with all these agencies at work, the inequalities that have existed for sometime will soon be eliminated, and the Farm and Farm Products back to normal. In view of these conditions, it would be unwise of the Farmers to suspend or even curtail their operations as there are just as many people to be fed as there ever was, and the Farmer must feed them. And those who maintain normal production will be amply rewarded for their efforts.

**ALFALFA and CLOVERS:** All varieties of Alfalfa and Clovers are higher than when we issued our January 16th Price Current and Seed Bulletin. Alfalfa and Red Clovers are especially scarce and higher and if there was the usual demand for Alfalfa, war-time prices on it would again prevail. We can only say to those who are going to buy that the sooner they do so the cheaper they will get it. Sweet Clovers are plentiful and cheap but in sympathy with other clovers, are firm with an upward tendency. Now is the time to seed your pasture land to Sweet Clover and double and triple its pasture capacity.

**TIMOTHY:** The effects of last year's short crop is just now becoming apparent as prices are fully \$1.00 per cwt. higher than a month ago and firm at the advance.

**SUDAN GRASS:** There is ample stock on hand and available for this season's requirements. Prices are still below cost of production and will not go lower. If interested in large quantities ask for samples and special prices.

**OTHER GRASSES:** The available supply of Kentucky Blue Grass is the smallest in the history of the oldest Seedsman, and prices the highest. It is now plainly evident there is not enough seed in the country or available to supply half the usual demand and holders can obtain almost any price they may ask. Other grasses are showing strength as they usually do at this season of the year.

**OATS, BARLEY, WHEAT and CORN:** All of these are strong and higher. Wheat is sharply higher and active. The condition of the Fall Wheat crop throughout the entire country is the poorest for years and is really alarming. It is estimated that with ideal conditions, the remainder of the season there would not be fifty per cent of an average crop. This is the year for those in the Spring Wheat Belt to put out an increased acreage as every indication points to an acute shortage and higher prices. Spring Wheat is the best money Grain-Crop this year. Ask for sample and prices of our Marquis, it can't be beat.

**BEANS:** The Pinto is just coming into its own as it has shown more activity and commanded relatively higher prices than any other Farm Crop. The Pinto is now recognized as the safest, surest and best money crop the Dry-land Farmer can grow. It not only pays him better in dollars and cents, but improves his soil at the same time.

**POTATOES:** The erratic conditions that have characterized the Potato market for the past two months is only symptoms of last year's short crop which from now on will be reflected in higher prices. Potatoes put Colorado on the Vegetable Map and, taking it year in year out, is the best cash crop for those having suitable land for them. If you are going to plant potatoes and have not yet secured seed, don't delay it longer, the sooner you buy the cheaper you will get them. We have several cars of genuine Minnesota Red River Early Ohio Seed stock in trainst now, also some fine Irish Cobblers as we ever saw. We have specialized in Potatoes for over 30 years, handling hundreds of cars of them yearly, and are in better shape to serve you than any house in the West. If interested in Potatoes, get in touch with us.

**ONION SETS:** We are the largest growers of Onion Sets west of Chicago, and have on hand today more Sets than all other dealers combined in the State. Our Sets were all grown by us on our Vegetable Farm adjoining Denver and are superior to eastern grown, water-soaked stock. If you want Western grown Sets, that were grown right, harvested right, stored right, and are right in every respect, send us your order and secure your stock from the grower direct.

**POULTRY SUPPLIES:** We wish to call special attention to our line of Poultry supplies which is as large and complete as carried anywhere. Send us your orders. We have the stock and can please you.

**NURSERY STOCK and PLANTS:** We represent one of the largest Nurseries in the West and desire to call your special attention to our large and complete assortment of Nursery Stock. This is all Western grown acclimated stock, that you can put out with safety and assurance. We are the largest growers of Plants in the West. We grow on our Vegetable Farm, under our personal supervision, every plant we send out. Have acres of them this year and can supply them in any quantities desired.

**GARDEN SEEDS:** There has been an active demand and movement of Garden Seeds indicating that hard times had caused people to return to growing their own Vegetables. There has also been a heavy demand from the Mountain districts for Lettuce, Cauliflower and other Vegetables adapted to the Mountains. Vegetables last year were the most profitable crops grown in the State and an increased acreage of nearly everything is being planted this year. Colorado will soon be recognized as the Summer Garden of the United States, the same as California is looked upon as the Winter Garden. Mountain grown Head Lettuce is going to be Colorado's Vegetable leader this year and will eventually develop into one of our best industries. We have large stocks of all Seeds we list and ample and efficient help to get them out promptly.

Let your orders come, will take care of them promptly on arrival. If you have lost or misplaced our 1922 Catalog, ask for another copy which will be sent you promptly. Yours very truly,

**THE BURTON SEED CO.**

These quotations are net cash f. o. b. Denver. Subject to market changes and stock being sold.  
Seamless sacks 40c each, jute 10c each. No charge for packing or drayage.

## Fruit Trees

Our Apple, Cherry, Peach, Plum and Pear Trees are standard first-class 2-year old stock, 3½ to 5 feet. This is all Western grown, acclimated stock ready for delivery and planting any time now. Order early and get your trees out while there is plenty of moisture. The earlier you get them out the less loss you will have.

**APPLES:** Varieties: Yellow Transparent, Early Harvest, Duchess, Wealthy, Maiden Blush, Autumn Strawberry, Grimes Golden, Delicious, Jonathan, Staymen's Winesap, Wolf River and Gano. **CRAB APPLES:** Hyslop, Red Siberian, Florence and Whitney. We quote any or all of the above varieties as follows:

	By Parcel Post, Prepaid.	By Express.
1 to 10, all alike or assorted, each.....	\$ .75	\$ .65
10 to 20, all alike or assorted, each.....	.75	.60
20 to 30, all alike or assorted, each.....	.65	.55
30 or more, all alike or assorted, each.....	.60	.50

**CHERRIES:** Early Richmond, English, English Morello, Large Montmorency, Wragg and Compass Cherry Plum:

	By Parcel Post, Prepaid.	By Express.
1 to 10, all alike or assorted, each.....	\$1.00	\$ .90

## SEED NOTES

Since our April 1st issue of Seed Notes, there has been an unusual heavy demand for all kinds of Field and Garden Seeds, with acute shortages and sharply higher prices developing on many items. Alfalfa and Clovers are unchanged with only a fair demand. Timothy movement fair at steady prices. There has developed an acute shortage and correspondingly higher prices on Sudan Grass. The low prices on it early in the season developed a heavy demand, using up the surplus stocks before dealers were aware of what was happening. We would not be surprised to see still higher prices yet. Kentucky Blue Grass continues very scarce and high, only a few dealers able to supply it at any price. The demand for Wheat is not so urgent as earlier in the season. Oats, Barley and Corn in good demand at slightly higher prices. Pinto Beans are higher with an increased demand for both table and seeding purposes. Every indication points to an acute shortage and still higher prices before seeding is completed. Potatoes, especially good stock, are scarce and higher. We have our last car of Minnesota Red River Ohios in transit due the third, and when these are gone will be unable to secure more. Have some extra fine Brown Beauties and Russet Burbanks. If you are going to need any more potatoes get your order in early. "First Come, First Served." The demand for Poultry Supplies continues heavy, indicating an increase in this line which is proving to be a most profitable one as it does not require a great deal of capital to get it started. The demand for Nursery Stock and Plants has been excessively heavy with many items of Nursery Stock exhausted. The demand and movement of Plants has been the heaviest in our experience. We doubled our Plant-growing facilities this season and, with this increase, will be able to supply the unusual demand. We will have millions of Cabbage, Cauliflower, Tomatoes and Sweet Potato plants, and will supply these at prices quoted as long as we have them. Get your orders in early, giving us plenty of time to get them out. 1922 is going to be our Banner year on Garden Seeds as the demand so far exceeds the war-time demand and Colorado will have more than double the amount of Vegetables this year than in the past. We prepared early for this demand and still have good stocks of nearly everything we list. Let your orders come; will take care of them promptly.

Thanking you for past favors, and awaiting your orders, we are

Yours very truly,

**The Burton Seed Company**
